

Atworth Village Magazine – Reprinted Back Issues

I have a number of re-printed back-issues of the **Atworth Village Magazine** available for those who are interested in recent village history and seeing how things were communicated before the age of Internet Social Media completely took over village communications.

I edited and published the magazine monthly for 6 years, the initial year being 2006. Most issues comprise 32 pages and a significant number have full-colour covers, some with very impressive paintings and photographs of village features and views. In general I am selling them at a 10%-20% loss.

All copies are in perfect (unread) condition except where otherwise stated.
